Health, Safety & Wellbeing

ElectraNet is committed to co-creating a workplace of choice and enriching the communities in which we operate.

As an industry leader, ElectraNet is at the forefront of the clean energy transition. We are socially and environmentally ambitious, and our continued commitment to developing, operating and maintaining our network in a way that creates opportunities for people and nature to thrive is essential to achieving our vision of energising South Australia's Clean Energy future.

Our commitment also drives our focus to create a physical and psychosocial environment that supports the health, safety and wellbeing of our people.

We all contribute to ElectraNet's workplace culture and have a duty of care to ourselves and one another to work safely, assess and manage risk, courageously speak up and promptly report any unsafe working practices, hazardous working conditions or security threats and to collectively learn and grow from every opportunity.

Position Overview

The Procurement and Contracts Manager forms part of a team responsible for the end-to-end management of all contracts managed by ElectraNet's Delivery team. This can include subcontractor contracts, transmission connection agreements and plant procurement contracts, requiring the development and delivery of commercial/procurement artefacts principally for ElectraNet's regulated and contestable works portfolios.

Under the guidance of experienced team members, this position will identify, develop, and execute acquisition strategies to assist in securing and delivering projects in South Australia. The Contracts Manager will further support the successful delivery of commercial transactions during the execution phase of the works. This involves proactively providing advice to internal customers, establishing end to end supply arrangements for the provision of goods, works and services, and maintaining corporate procurement policies, strategies and practices that deliver value for money at acceptable levels of risk.

Success in this role is characterised by impactful and influential leadership, clear strategic thinking, and an ability to build relationships across broad stakeholder groups and engineering and design delivery excellence.

Key Responsibilities**Operational & Technical**

Capable of working for extended periods under general supervision, you will be accountable for contributing commercial advice and operational support to internal customers within ElectraNet by:

- Managing the delivery of supply arrangements for various construction and maintenance activities which includes commercial strategy development, preparation of tender documentation, tender issue, tender evaluation, contract negotiation, contract execution and contract management.
- Managing the commercial (Contract Administration) requirements of contracts and agreements, including variations, extensions of time claims, scope changes, delay claims, and application of Liquidated Damages.
- Establishing and managing Contract Administration plans for major contracts, including contract start up and close out activities, performance security, insurance, satisfaction of conditions precedent and appointment of contract representatives.
- Issuing Practical Completion certificates, Final Certificates, suspension letters and other contract notices, maintaining signed copies in the central database.
- Providing practical advice on contract management, contract administration, including governance and compliance with contract terms to project teams.
- Interpreting and managing contractual issues, providing contractual advice in the assessment of variations, delays, and defects.
- Assisting in the identification, recording and management of contract risks and issues, running internal and external commercial meetings to progress delivery of the project.
- Developing governance documents in accordance with ElectraNet requirements including Acquisition Strategies and Purchase Recommendation Requests (resulting in delegate approval).
- Leading cross-functional Buying Teams which successfully deliver commercial outcomes and value for money outcomes.
- Reviewing expiring standing offer (framework) arrangements and either extend or where appropriate, negotiate and execute new contracts.
- Maintaining contracting records, including databases and contract files (both electronic and hardcopy).
- Preparing various reports on procurement functions, supplier performance and business matters as required.
- Applying procurement policies, strategies and practices that meet business requirements.
- Developing and maintain effective relationships (both internal and external) which supports the successful delivery of strategic priorities and business outcomes (which includes continuous improvement).
- Working effectively with ElectraNet's Legal, Project and Engineering teams to influence standard and special conditions for tendering and contracting
- Participating and actively engage in business partnering initiatives with key ElectraNet business partners.
- Contributing to inter-organisational obligations related to compliance in relation to all technical requirements, regulations and legislation certification.
- Leading procurement and business improvement initiatives as may be appropriate.

Behavioural

- Build and maintain strong working relationships with and between internal and external stakeholders, delivering a high level of customer service.

- Create and develop a respectful workplace environment that values cultural diversity, innovation, open discussion and cross functional collaboration to help drive high performance.
- Lead by example; role model desired behaviour and priorities, demonstrate personal accountability for self-development and for achieving quality and timely result.
- Demonstrate behaviour that is consistent with ElectraNet's values, Code of Conduct and Acceptable Use of Technology Resources Policy while performing the role in a professional and ethical manner.
- Promote safe work practises that support the safety of all workers and the security of ElectraNet's assets, proactively reporting safety incidents, near misses and security threats.

Significant Working Relationships

- ElectraNet Corporate Development
- ElectraNet Network Services
- ElectraNet Delivery Division
- External suppliers and customers

Equipment & Technology Used

- Microsoft tools, including Dynamics, Outlook, Word, Excel and PowerPoint
