

Position details

Title of Position:	Sustainability Analyst
Reports to (position title):	Manager Sustainability
Division:	Legal, Risk & Governance
Function:	Sustainability
Number of Direct Reports:	Nil
Grade:	4

Health, Safety & Wellbeing

ElectraNet is committed to co-creating a workplace of choice and enriching the communities in which we operate.

As an industry leader, ElectraNet is at the forefront of the clean energy transition. We are socially and environmentally ambitious, and our continued commitment to developing, operating and maintaining our network in a way that creates opportunities for people and nature to thrive is essential to achieving our vision of energising South Australia's Clean Energy future.

Our commitment also drives our focus to create a physical and psychosocial environment that supports the health, safety and wellbeing of our people.

We all contribute to ElectraNet's workplace culture and have a duty of care to ourselves and one another to work safely, assess and manage risk, courageously speak up and promptly report any unsafe working practices, hazardous working conditions or security threats and to collectively learn and grow from every opportunity.

Position Overview

The Sustainability Analyst is an integral contributor to the evolution of ElectraNet's Sustainability Strategy, playing an important part in delivering the sustainability data collection, analytics and reporting to ensure we meet our Sustainability Strategy targets and goals.

You will also take responsibility for our Global Real Estate Sustainability Benchmarking (GRESB), National Greenhouse and Energy Reporting (NGER) and periodic reporting on carbon reduction and other sustainability commitments. You will work closely with all members of ElectraNet's Safety & Sustainability Team, as well as a broad range of internal and external stakeholders across our South Australian operations.

Success in this role is characterised by impactful and influential sustainability insights, clear strategic thinking, preparation of timely, accurate, high quality sustainability reporting and an ability to establish and maintain relationships across broad stakeholder groups.

Key Responsibilities**Operational & Technical**

Assisting the Sustainability Manager in driving the evolution of ElectraNet's sustainability strategy, engagement and communications, responsibilities include:

- Support the ongoing rollout and evolution of ElectraNet's sustainability strategy and implementation of initiatives to help the ElectraNet achieve key objectives.

- Lead ElectraNet sustainability data collection and monitoring.
- Responsible for annual, quarterly and ad-hoc sustainability reporting including GRESB, NGER, Board/Executive/investor reports and investor/shareholder/insurer information requests as required.
- Foster relationships across ElectraNet to support engagement and collaboration.
- Lead the development of key sustainability communications such as annual Sustainability Reporting, green finance reporting, sustainability website updates, newsletter, social media and other forums.
- Support communication with key stakeholders, notably ElectraNet's Board and Executive, investors and ESG Ratings agencies.
- Maintain awareness of industry and regulatory trends as they relate to sustainability/ESG issues.

Behavioural

- Build and maintain strong working relationships with and between internal and external stakeholders, delivering a high level of customer service.
- Create and develop a respectful workplace environment that values cultural diversity, innovation, open discussion and cross functional collaboration to help drive high performance.
- Lead by example; role model desired behaviour and priorities, demonstrate personal accountability for self-development and for achieving quality and timely result.
- Demonstrate behaviour that is consistent with ElectraNet's values, Code of Conduct and Acceptable Use of Technology Resources Policy while performing the role in a professional and ethical manner.
- Promote safe work practises that support the safety of all workers and the security of ElectraNet's assets, proactively reporting safety incidents, near misses and security threats.
